

States of H₂O

Visual Aid

State	Temperature
	Solid: ice Less than 0° C
	Liquid: water 0° to 100° C
	Gas: Steam More than 100° C
	H ₂ O does not exist— only particles H ₂ has split into H ⁺ H ⁺ and 2 e ⁻ and the oxygen atom has split apart More than 100,000° C
